Sales Information: Thermal Oil Heater

GekaKonus GmbH is endeavored to adapt their products to the demand of the market and the requirements of our customers.

The horizontal Thermal Oil Heaters are supplied now generally with a hinged heater cover.

This design has following advantages for the plant operator:

- Simple opening of the heater without lifting-tools possible
- Quick inspection and cleaning of the heating surfaces, the combustion chamber and the flue gas passes
- short inspection ranges can be implemented quick and problem-free
