Sales Information: Thermal Oil Heater for Process Heating

GekaKonus® THERMOMAT® would be used in a heating and cooling process circuit as a primary heater. For the required outdoor installation the burner on the top is protected against rain and snow by an enclosure. The electrical installation is partially designed in acc. the ATEX rules for the installation in Ex- zone.

Heater:	THZ-S 20 V
Capacity:	1250 kW
Design temperature:	370 °C
Certified acc.:	CE
Fuel:	Natural gas
